9. Ch 1, work 1 sc in every sc around the sides and in every ch on both straps. Repeat this round 2 more times or until your edge and straps has a desired width. Cut the yearn and weave in ends. Sew your handmade pin on to the bag next to the strap where or you want it.

10. On the edge on the inside of the bag you attach your carabiner key chain.

11. This is a clever way to keep track of your keys, so they don’t slip out between the holes of the mesh pattern. 😊
